

Make Your Practice More Efficient to Meet the Growing Demand for ENTs

**D-Scope VIA workstations for Endoscopy and Encounter-Based video recording
simplify ENT clinics and departments**
Unify Workflow • Reduce Non-clinical Tasks • Speed Reimbursements

Improve your quality of care and your quality of life.

D-Scope VIA helps reduce non-clinical tasks, so you can help increase capacity within the same operating hours.

D-Scope VIA helps you automatically:

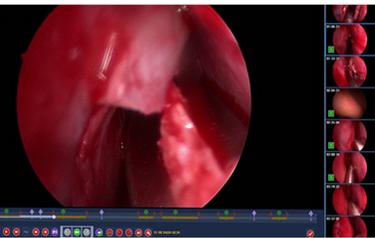

- Update EHR
- Prepare reports
- Organize case presentations
- Refer and consult with colleagues
- Drive data for care quality programs
- Share key images/video with patients and referring physicians
- Manage your video image archive

D-Scope VIA streamlines procedures for ear, larynx, nasal/sinus, neck and pediatric procedures with built-in presets and keywords.

- Stroboscopy
- Laryngoscopy
- Microlaryngoscopy
- Videolaryngoscopy
- Esophagoscopy
- Flexible endoscopic evaluation of swallowing with sensory testing (FEESST)
- Speech-language pathology evaluation
- Stapedectomy
- Microlaryngoscopy with Biopsy
- Functional Endoscopic Sinus Surgery
- Submandibular Gland Removal
- Ear Tubes with Adenoidectomy
- Laryngectomy
- Cochlear Implants
