

Improve performance and reduce stress in the Operating Suite

D-Scope VIA is your end-to-end solution for recording, storing, and sharing video, image and audio files from endoscopy diagnoses and procedures.

Integrate the information and tools you need for optimal outcomes.

Streamline common surgical procedures for:

- Otolaryngology
- Gastroenterology
- General/Minimally Invasive Surgery
- Gynecology
- Colorectal Surgery
- Surgical Oncology
- Urology
- Robotic Surgery

Integrate 3rd party apps and devices for modeling, live streaming, wireless control and other surgical and training functions.

D-Scope VIA empowers surgical teams with integration of all medical media for scheduled and encounter-based (EBIW) imaging.

D-Scope VIA helps you automatically:

- Update EHR
- Prepare reports
- Organize case presentations
- Refer and consult with colleagues
- Drive data for care quality programs
- Share key images/video with patients and referring physicians

Visit dscopevia.com for more information. Call 1 (877) 223-2660 to schedule a demonstration.
